

Project Manager

Description

We are seeking for a highly motivated and experienced Scrum Project Manager to lead our Agile teams through the successful delivery of software projects. The ideal candidate will have a strong understanding of Agile principles, the Scrum framework, and a proven track record of managing cross-functional teams in a fast-paced environment. The Scrum Project Manager will be responsible for facilitating Scrum ceremonies, removing any barriers, and ensuring that projects are delivered on time and within scope.

Responsibilities

- Total experience between 10-12 years, having minimum of 5 years hands-on experience on project management
- Lead daily stand-ups, sprint planning, retrospectives, and sprint reviews to ensure the team adheres to Scrum practices and principles
- Facilitate communication and coordination between cross-functional teams during all the phases (discovery, design, development, testing, business user testing, stake holders engagement)
- Manage and maintain product backlogs, ensuring that user stories are prioritized according to stakeholder needs
- Adapt best-practices for Agile project management and Scrum processes
- Track team progress, manage risks, and escalate issues that may impact project timelines or deliverables
- Develop and manage project schedules, ensuring that all Scrum activities are properly executed and aligned with business goals
- Ensure that project milestones, deliverables, and objectives are met on time and within budget
- Work closely with product owners and stakeholders to clarify requirements and ensure alignment with business objectives
- Collaborate with senior management to define project scope, timelines, and priorities
- Provide regular updates and reports to key stakeholders on project progress, risk, issues and mitigation plans
- Act as the primary point of contact for project-related communications

Qualifications

- Bachelor or master's degree in computer science, information technology or a related field
- Total experience between 10-12 years, having minimum of 5 years of Scrum or Agile Project Management, with a proven track record of leading Scrum teams in
