## Sales Executive

### Description

#### Job Overview:

We are seeking an experienced and highly motivated Sales Executive to drive sales growth for our digital transformation offerings. The ideal candidate will be responsible for managing the end-to-end sales cycle, from prospecting and lead generation to closing high-value deals. You will work closely with the technical team to understand client needs and offer mindX360 solutions, while building and maintaining relationships with key stakeholders.

**Experience:** 5+ years

Looking for Diversity hiring (only Female)

### Responsibilities

#### Sales Strategy Development:

- Develop and implement effective sales strategies for selling Enterprise Integration, Salesforce.
- Conduct market research to identify potential clients, understand industry trends, and spot business opportunities.
- Set clear objectives, KPIs, and sales targets to ensure consistent growth in the sales pipeline.

#### Sales Presentation and Negotiation:

- Deliver impactful sales presentations, ensuring clients understand the value proposition of the IT solutions.
- Address and overcome any objections or concerns from potential clients during the sales cycle.

#### Client Consultation and Needs Analysis:

- Engage with clients to understand their specific project needs, challenges, and business goals.
- Work closely with the solution team to design tailored solutions that meet client requirements.
- Provide clients with clear project proposals, technical demonstrations, and proofs of concept.

#### Project Handover and Coordination:

- Coordinate with the delivery and technical teams to ensure smooth project initiation after contract signing.

### Qualifications
